

EVERYDAY CIRCUS

Bio 2017 - English

Everyday Circus was founded in 2010 by four best friends in South West Germany. They wanted to be more than a band that just played concerts for friends while drinking as much beer as possible.

While still in school, they already followed each others musical origins with great interest. Eventually it became clear that a band consisting of these four guys would be the greatest thing for them all.

Matteo Schwanengel - Vocals & Guitar

Marc Weber - Guitar, Keys & Vocals

Eren Selcuk - Bass

Simon Müller - Drums

Almost every day they find themselves rehearsing together. But what they appreciate most about each other becomes their greatest challenge: Everyone knows exactly what he wants.

But what do „we“ want?

So first it's necessary to understand that compromises during songwriting don't mean loss. Since then no song idea makes it through rehearsals without being enriched by all four of them. And no matter how annoying the discussions are, they always pay off and came to fruition in their debut „Mirrors“ in early 2016.

On stage, however, there's always quick consent. It has to be loud and beautiful and that as often as possible. In 2016 that means two tours on their own through Europe and joining Tracer on their UK Tour.
